Nathaniel Bronner: Some of us don't have the foundation for great blessing right now because it'll mess us up. God cannot give it to us because if he did, we'd forget him.

Female: You are listening to BrothersoftheWord.com. This is Part 7 of the series titled "God's Business Mission Statements - We shall strive to have the best environment" by name is Nathaniel Bronner. This messages is number 5906.

(Music Playing: 00:00:24 - 00:00:37)

Female: And now for God's Business Mission Statements Part 7 - We shall strive to have the best environment.

Nathaniel Bronner: Welcome to Brothers of the Word because brother, you need the word.

And as you know, I have been in the middle of a series dealing with the eight mission statements that God gave me actually about my company, and the further I get into the series, the more I am understanding why God had me to speak on those eight mission statements. So today is actually Mission Statement No. 6, but I've been on this series now well over a couple of months, and sometimes people when you begin to speak things, it vibrates through the air.

Last month we reached an entirely new height of sales. It just blew everybody's mind and we went further and higher than we've ever gone before. But God said, "I want you to speak about the eight things I told you to do within your company." And I'm understanding more and more not just how it relates to me and the company and how it may relate to some of you, I'm even understanding greater how even the company is going to play a bigger part even in your life.

You may not understand it now, but I'll explain it to you later but it's going to make a difference. Last month was just a phenomenal month. We couldn't believe and the thing about it - normally what happens when you have one of those super months, the next month be a little lower, because everybody has ordered and they place these huge orders and then you get this huge month this month. In the next month things will go down. And the thing about it, we're halfway exactly today -- halfway through this month and this month is looking like it may be

bigger than last month. So God has breathed just in me just talking about doing what God says to do, he's breathed the blessing.

Some of you all, if you just start talking about -- not even doing it, you just start even talking about what God has told you to do, it'll bring greater levels of blessing in your life because there's a power just in what you even talk about. I'm seeing it even with my sons just what they even talk about. I remember on last Sunday -- last Sunday was Super Bowl Sunday, and I'm in the house and I'm listening to my sons, the two oldest ones talk and this is Super Bowl Sunday and they are 25 and 21. The other one will be 22 this month. So they're 25 and 21. It's Super Bowl Sunday, and I'm here listening to them talk and they didn't mention one single syllable about the Super Bowl. They're talking about investing.

I say, "My goodness." You're in the middle now where they're talking about buying a Bitcoin mining machine and it's a difference when you change your elevation from one level to the next level. When you change your elevation from being on television watching something, to being in the stands watching something, to being on the field playing something, to owning the team. It's a different level of mentality.

So when God has me even talking about what he told me to do in my company, some of the stuff is going to inspire you to change your level. There's nothing wrong with watching the Super Bowl. I hope you enjoyed it. It was phenomenal. Now see, the one thing I did know -- I did know the quarterback of the Tampa Bay Bucs and it's not because I followed the Tampa Bay Bucs. I went to school in St. Petersburg which is next door to Tampa and I hadn't watched a single Tampa Bay Bucs game yet, but I did know who Tom Brady was. And the reason I knew who Tom Brady was because I read his book called the TB12 Method which is about how a man in his 40s can outdo men in their 20s and I want to know how he do this. How this man is 40 something years old and he is outplaying, he is outperforming. He is faster. He is stronger. He is more flexible. He is more accurate. How this man doing is, he twice as old than these 20 years? I want to know.

So if you want to know something, study somebody who's doing it. I don't need to study somebody who didn't make the Super

Bowl, I want to study somebody who not only made the Super Bowl, won the Super Bowl. Tom Brady wrote a book called the TB12 Method and it talks about how he gets his body and mind in shape so he can whoop folk half his age.

00:05:06

I wanted to know. I didn't watch him in the Super Bowl, but I did read his book because I want to be able to perform better than folk 20. But to do that, I can't do that sitting on the couch watching the Super Bowl. You got to get up and move.

So people were preparing just to go to another level. So as we get into first of all the six of the mission statements and number one was always remain financially viable. We must make sound financial decisions to remain profitable to not only remain in business, but to prosper in business.

Number two, use no deception. We must always be truthful both inside the company and to our customers and never use deception for gain or other reasons.

Number three, our products and actions must be beneficial. Everything done at thewoman.com must have an overall beneficial effect.

Number four, we shall strive to have excellent customer service. We shall strive to treat each customer relationship as we wish to be treated.

Number five, we shall strive to be the best in products and service. No company shall offer a better product value.

Today, I deal with our mission statement that God gave us, number six, we shall strive to have the best environment. We shall do our best to maintain a spirit of diligence, faithfulness, excellence, trust, peace and harmony that shall transcend the office and spread to our personal relationships. And that's what God told me. He said, "Not only will you have the best environment in these six areas." He said, "But it will be so strong that it transcends to your personal relationships." And actually as I was going over this this morning, it brought back to mind Mr. Moe. Now Mr. Moe was actually a white man who I hired years ago. He used to be our office manager and Mr. Moe

came to me one day and he said, “Mr. Bronner.” He said, “If I were not working for your company, I would be divorced.” He said, “Because my wife and I, we went through a rough time and all of my family told me ‘I got a good lawyer for you.’ But here you sat down and your brother sat down with me and you talked to us about relationships and you told us how to hang in there.”

He said, “If I was not at this company, I would have been divorced because all the folk around me divorce and if I listened to them, I had done what they did. But because I was here.” As I thought about it, “So let me think about this thing, Century now is 33 years old.” I said, “It’s been nobody who has been divorced or gotten divorced while they’re working for this company.” In the 33-year history of this company -- I’m sitting and then I had to email Susan (00:08:05) and not now while I’m in that. Nobody at the company has gotten divorced. Now there was some folks who got divorced before they got there. I can’t do nothing about that. There’s some people who got divorced before they got there. There may have been some who got divorced after they left, but there has not been one single -- and the thing about it, there’s been divorces in the church, but there’s been none in the company.

And I sat down, I thought about that and we have some people now who don’t work in the office. They work remotely, some even out of state, but they’re still on the payroll. They’ve not gotten divorced. I remember one couple and gentlemen who work for me and he came, he said, “Man, I’m having a hard time in this relationship.” I talked with him, still there.

The mission statement of having the best environment and it would extend to your personal lives, it has even filtered through to our employees and not one single employee of Century Systems has gotten divorced while they worked for the company, while they’re on payroll. Do you know how much that defies statistics? But there is a spirit that when you’re following God, it affects everybody because what you are around and I remember what Mr. Moe said. He said, “Everybody around me was divorced and everybody told me ‘they handed me a card, it’s lawyer right here, call them. They’ll make sure they put up a good fight for you.’” That’s not what we told Mr. Moe, and when he left there, he thanked us, “Thank you for saving my marriage because if I had not have been here, I’ve been with all the rest of the folk I’m around and have been divorced.”

So it's a spirit sometimes it goes through. It makes a difference just in who you're around and how the head filters through the whole environment. And see, we get those six things just in that best environment of diligence and faithfulness, of excellence, of trust, of peace and of harmony. And I asked God, I said, "Lord, what scripture do I use for this because it's a kind of little." He spoke a word. He simply said, "Matthew 16:2" and I looked up Matthew 16:2. I said, "What that got to do with today's message?"

00:10:17

Sometimes it just looks like it has nothing to do with the message until I sit down and analyze it. In Matthew Chapter 16, I'm going to read the first four verses. "The Pharisees and Sadducees came to Jesus and tested him by asking him to show them a sign from heaven. He replied, "When evening comes, you say, 'It will be fair weather, for the sky is red,' and in the morning, 'Today it will be stormy, for the sky is red and overcast.' You know how to interpret the appearance of the sky, but you cannot interpret the signs of the times. A wicked and adulterous generation looks for a sign, but none will be given it except the sign of Jonah." Jesus then left them and went away.

I said, "What did that have to do with today's message?" In business, most people understand the mission statement number one that God gave us, always remain financially viable. We must make sound financial decisions to remain profitable to not only remain in business, but to prosper in business. We all understand that in business. Often, we understand what's called EBITDA. An EBITDA is an accounting term that's used to give the value of a business. It actually means earnings before interest, taxes, depreciation and amortization. It's the way you measure the financial health, the financial value of a business. And you get the EBITDA figure and you multiply that by four to five times and that gives you how much the business is worth. All the people in businesses understand that. They can understand like Jesus saying, "You can understand the signs of a sky, but you don't understand the sign of the times."

It's easy sometimes to value something based on a financial bottom line. It's easy to see the sign of EBITDA. What you don't see is the other stuff and sometimes when looking at a company, when looking at a church, even when looking at a

potential spouse, we look at EBITDA, the earnings before interest, taxes, depreciation and amortization. What kind of car do you drive? What kind of degree do they have? What kind of house do they live in? And we see these kind of things and we will base the whole company and it doesn't just apply to just business companies, the company that you keep -- you base the whole company on EBITDA. But often, God looks at other stuff.

Now he gave us number one, you need to be financially viable because if you're not financially viable, you won't stay in business, but God gave us this other stuff. All of the other seven principles have to do with stuff that's not particularly related to the EBITDA, it's not related to the bottom line. There's so many of our lives right now, is not related to the bottom line.

The main thing that happened with COVID that folk were worried about was the economy. They were worried about money. Business involves money. Life involves money. There's no question about that. But that's not the sign of the times. That's not the thing that God needs you to see because it didn't take God to see money. Folk see that all by themselves.

I mentioned about my sons and how they were discussing about investment. Well, the one who's out front with the investment and our weekly meeting two weeks ago he says, "I need to change my focus and I don't need to be focusing so much on investment." He said, "I got to start focusing more on my spiritual life." He was reading the sign of the times.

In Bronner Brothers which is the other company that I'm a part of, that's a company that my father started and we brought in a consultant to help take the company to another level because we've been having some challenges in the last few years with our EBITDA, with our bottom line profit. And they were telling us, "You know, your business really is about C-level looking at this profit figure." And I said, "That may be true looking at the profit figure, but you got to look at way more than the profit figure." I said, "First of all, we've been in business for 75 years. There's a lot of folk got a lot of profit, but three, four years from it, they're gone. We've been in business for 75 years. We have never missed a payroll or had a payroll check bounced in 75 years." You try to run a business 75 years without ever bouncing a check or ever missing a payroll and see how difficult that is. I see among the brothers, there are no divorces. When

you look at the top richest three men in America today, number one is Elon Musk. Number two is Jeff Bezos. Elon had been married two times. Jeff just busted up his wife. It ain't easy.

00:15:09

So I said, "Among all of the brothers, there are no divorces among any of the brothers. We're not as rich as Elon and we're not as rich as Jeff, but our households are together." I said, "Then, ain't not that the brother has been in the hospital but me and I was only in that due to a crash that God pulled me through. Do you know how valuable it is? No, it's not in the EBITDA figure." And then the brothers take a brother's trip every year. We have an attorney who handles our estate stuff, dealing with inheritance and all of that and corporate taxes and they're located out in the rich section of town. And he told us one time he said, "Mr. Bronner." He said, "To be honest about it, I got a whole lot of clients with way more money than you all got." He said, "As a matter of fact, you all are actually some of the least wealthy of the clients we handle because we handle clients with hundreds of millions of dollars and I got all these clients with all this money." And he said, "But you all are the only family -- you all are the only one that gets along."

He said, "Most of my other families that I handle, I can't even bring them all in the conference room. We have to do it the conference call because they can't be in the same room together without fussing and fighting." And he asked my mother, he said, "Mrs. Bronner, you all are the only family out of all these wealthy folk I handle, you all are the only family that gets along." This is a white lawyer and he says, "Can I bring my family to your house for Christmas?" Because whatever you all got, it ain't in the EBITDA. We got families and most of the families I handle got way stronger EBITDA figures than you, but it's not in the EBITDA. "Can I bring my family to your house for Christmas? Because whatever the Bronners got, I want my children and I want my wife to see it." And my mother told him this, she said, "Look." She said, "Whatever you want your children to be, model it." My mama didn't invite him over to Christmas. She said, "Whatever you want your children to be, model it. You'll be what you want them to be and they will see what you are and what you do and sooner or later they will follow that." Just simple words that my mother told his high-

powered expensive lawyer. “Whatever you want your children to be, model it.”

So oftentimes this stuff is not in the black-and-white financial figures, it's in this having the best environment and when you can follow those six things of diligence, faithfulness, excellence, trust, peace and harmony, it's in a company. But God says, “I want the peace in the company to flow through to your employee's homes.” And normally a company don't give a hoot what's going on in your house. In the vast majority of companies, all they care about is EBITDA. All they care about is the earnings before income, taxes, depreciation, interest and amortization. That's all they care about is the EBITDA. But life is so much more than EBITDA and that's why even though the company now -- the money is just going up and up and up and up and up. It can be some of the worst things in the world to mess up your spirit, is to have business booming and you got to keep yourself grounded and you got to understand like my son realized a couple of weeks ago. “I got to start focusing on my spiritual life.”

Some of you all, your money is doing really, really good and they're sometimes antipathy of each other, meaning that sometimes when money goes up, spirit goes down. You got time to spend time with God. When your money gets to a certain level, you can sometimes feel that you need God and I got five month's rent in the bank. Do you know you feel different when you have five month's rent in the bank? Than when your rent is due in five days, you ain't quite got it all. The big difference, but sometimes when you study the Bible and you study the children of Israel, the more God blessed them, the further they got away from God. The more money he gave them, the further they moved away from it. So it's a dangerous thing. But if you keep your mind focused on God, he can bless you without him messing you up.

So I believe we're getting ready to move into just a season where there will be more and more of God's blessings that will flow and all of the areas of lives. But as these blessings begin to flow, we've got to stay focused on God.

I appreciate Brother Julian and Evette. You all know Evette just had a birthday a couple of days ago and they're staying at a fabulous hotel downtown.

00:20:04

When I saw Julian this morning, I was kind of surprised. I said, "You all now staying at the hotel?" He said, "Yeah, pastor. We live in the back end of the hotel." He said, "But we left this fine hotel to come to church."

That's why the God says when you get food and you forget to praise me. Julian said, "We left the hotel to come to church." It's a super nice hotel. Some people wouldn't just stayed as -- and see, they're one of the hardest-working couples in the church and they have a right and said, "We don't work hard all." "Listen, you need, deserve a break." "Baby it's your birthday, we deserve a break." So if anybody had a reason not to be at church, it's Julian and Evette. If anybody needed a break, it's Julian and Evette. But they said, "No, we're going to church the morning." And do you know when you have that kind of unity? There's a power that goes through and then God can bless you more and more and more and more.

Some of us don't have the foundation for great blessing right now because it'll mess us up and God cannot give it to us because if he did, we forget him and we wouldn't focus on God. So as we move through the last couple of these messages just dealing with the company -- I think it's going to be an elevation of not just spirit, but an elevation of blessings and some of you may have seen the Instagram post that I had a couple of days ago and I actually put a logo, Blessings Bountiful. Blessings Bountiful, it's actually an LLC corporation that James and I own. It's actually our investment arm, but it's also the name of the next church. And I had the artist do the logo -- when I saw the logo, I said, "Oh, this logo is just fantastic." And it wasn't until I was looking at the logo about a week ago and the logo has some leaves and branches that come underneath it and I started looking at the leaves. I said, "How many leaves on this thing?" And I begin to count them and by the time I got through counting them, I said, "Oh my goodness. There are 42 leaves on this thing."

I called up the graphic artist because the graphic artist also works for Century and I said, "Man, do you know how many leaves on that logo that you did for Blessings Bountiful?" He said, "No." I said, "Count them." And he counted and he said, "Oh my goodness." He says, "42 leaves" and he knows the

significance of 42. But I said, “Did you do that?” He said, “No.” He said, “All I did before I designed this.” Well, he said, “I prayed and asked God for guidance and I change this and I changed and I did this and I did that.” He said, “I had no idea was 42 leaves on it.” Ad see God, he says the next church will be 4,200 seats including (00:22:57) and I’m saying to myself, “How are going to get a 4,200-seat church in the rate?” We go, “It makes no logical or practical sense” but that is not my problem. My problem is to do what God has told me to do, is God’s challenge to make the other stuff happen. And to be honest about it, that’s all I can handle. I can’t handle doing what you supposed to do. I got all I can handle doing what I’m supposed to do. That’s all Nathaniel Hawthorne Bronner, Jr. can handle is what I’m supposed to do.

So I have nothing to do. I can try to inspire you. But to be honest about it, I didn’t ask for YOLO, I got enough myself. I got enough stuff to do myself for what God has told me to do. So once I do what God has told me to do, that’s God’s issue on how he’s going to make that 4,200-seat happen. That’s his issue, but he can do that the same way he orchestrated with the artist to put those 42 leaves on the logo. When you do what you’re supposed to do, you leave the rest of that to God.

So as we go through the final messages just in this corporate mission statement, you need to have a mission statement in your own life. And when you follow that mission, when you follow what God has told you to do, blessings will start coming. When God says, “I will with your tithe, I’ll pour you out a blessing as you have not room enough to receive.” We’re struggling now trying to fill orders. We really are. But they cannot work on the Sabbath. They may be working today, but they can’t work on a Saturday, but we’re struggling trying to fill orders and I understand what it means. I’ll pour you out blessing that you don’t even have room enough to receive and all he ask you for is a little bit of the portion and some of us want to do it the other way around. “Well, Lord you give me the big stuff then I give you that.” That ain’t the way it work because to be honest with you, if I can’t trust you with a little bit, I sure can’t trust you with a lot. So people, we need to become faithful with whatever God has told us to do and when we’re faithful with what he don’t worry about the president and what he’s supposed to do, I have nothing to do with that.

00:25:03

He got enough on his shoulder, I got enough on mine. All I need to do is to do what God has told me to do. That's all he's going to be responsible and ask you for is, "Did you do what I told you to do?" And if you don't know what he's telling you to do, read your Bible. And as we move closer in to be the obedience of those mission on our mission statements of life, is going to change all of our results.

So I thank you just for bearing with me as we've gone through so far these mission statements, but I am really excited about what's coming. I really am. I am excited about what's coming and I'm not talking about I'm excited about some vaccinations, no. I'm excited about what's coming. I really, really am. I believe for God's people; the blessings are going to be beyond what we can even ask or think. I thank you for joining us today at Brothers of the Word. You can go to [BrothersoftheWord.com](http://BrothersoftheWord.com). You can listen to the entire series of God's Mission Statements and hear the entire eight messages absolutely free of charge or send this message to anyone absolutely free of charge. Thank you for joining us today at Brothers of the Word because brother, you need the word.

Amen. Amen. I'm going to ask C. Elijah if he would come and just close us out for today.

C. Elijah Bronner: Praise God. Now give Pastor Nathaniel a hand for the message. Praise God, it's such a powerful message. I'm just going to read his statement once again for the mission statement.

We shall do our best to maintain a spirit of excellence, spirit of diligence, faithfulness, excellence, trust, peace and harmony that shall transcend the office and spread to our personal relationships. So we're just so grateful to have that reminder.

The Bible talks about having an excellent spirit and so we're just grateful to be able to be happy and to be joyful, to serve one another and love, to be useful and kind and considerate, to look out for one another, to eliminate strife and bitterness, fussing and fighting and allow God's grace and his goodness to flow in our homes and in our atmosphere, in our environment. And so we're just grateful for that word today that reminds all of us to

love a little bit more, serve a little bit better, be a little kinder, be a little nicer and we're grateful.

Praise God. Every head bow. If there's anybody here today, if you want to surrender your life to the Lord Jesus Christ, invite him into your heart, will be your lord and savior. Or if you want to re-dedicate your life, or if you want to join the church, we want to give you an opportunity for any of those invitations. If you like to respond to any of those, you can come down. Or if there's anybody here you want to pray for your relationship, pray for your home, environment. You want the peace of God to just fill afresh and just going to change your way of life. You know, you want to say, "God, I want you to live through me. I want your love to flow through me and I'm tired of the strife, tired of the fussing, the fighting and having a bad attitude, griping and complaining and grumbling. I want a peaceful harmonious atmosphere in my home and in my life with people that I'm in a relationship with. I want to be a lifter. I want to be a blesser. I want to make people better around me." So if there's any one of you want to respond to any of those invitations, we invite you to come. Praise God. We thank God so much. Thank God for all of you all. Praise God. Amen. Amen. Amen.

Nathaniel Bronner: Anybody who wants just an additional peace in their home, my guess is there are some people who do need that additional peace just in your home, in your heart. The company has had an extreme level of peace within it. As a matter of fact, the reason I had to enforce our Sabbath rule -- because a lot of folk didn't want to go home. They literally didn't want to go home. There was more peace in the building than in their house and you can feel it sometimes when you walk in. So C. Elijah says for anybody who just needs a greater level of peace in your home -- and it's not easy these days to keep peace anywhere, you all know it's not easy to keep peace in most churches. Most churches have more mess going on in every auxiliary, department, all kind of stuff.

00:30:17

So the peace has been manifested in this church. It's been in the business. It has flowed into our homes. It is not that you don't have some issues, but there's a piece of God that exists there. Because remember even heaven itself had a war, that a third of

the angels were cast out. So, strife can occur anywhere, but there is an anointing and if my brother Bernard is here -- I want him to come down with us. James is not here. So I want him to stand instead for James. Bernard is president of Bronner Brothers and Upscale and business is tough. For those of you all not in -- business is tough and on our brother's trip this past year, Bernard said that he had made a declaration and the two of us, we're the two oldest and we're probably the two hot temper ones to be honest about it. And he said, "I had made a declaration and a commitment that I am not going to get angry about anything."

And see when you're running a lot of stuff, it's just a whole lot of stuff that comes at you and it's so easy to lose your cool. I told him the other day, I just admired him because I've seen the change and I've seen his control of spirit and no matter what comes at him, he's not gotten upset.

See that's why peace in your home comes after peace in your heart. You will not get peace in your home when you don't have peace in your heart. It comes after that, not before, so you can't walk into the house and my peace be still and you are raging on the inside. That's not going to happen. Peace in your heart precedes. It comes before peace in your home. So I want my brother to come down and just to hold up his hand. He's not a preacher. He's tearful, but he aint a preacher. You're telling I'm not the preacher. I'm not the preacher, but he has some things -- sometimes to be honest, that some preachers don't have.

So he's made a commitment not to get angry and I've not seen him upset since he made that commitment or really long before he made to commit, he made the change. And the three of us, myself, Pastor James, we all live on the same street. So when you talk about brothers being neighbors, we literally are. We all live within three houses of each other. We live on the same street. So I see him walking and he walks an hour every single day. No matter how much he has to do, no matter where he travels to, he walks an hour a day. But he told me on the last time -- I saw him out walking, went out and walk one lap with him and he says, "Not only have I continued my walking for an hour a day." He said, "But, I've added. I now spend an hour a day in prayer and meditation."

So he's got two hours a day set out, one for the exercise of his body, the other for the exercise of mind and spirit. So when I asked him to stand here, I know he's not a referee. He's not a preacher but he's got something that so many of us needs and I told him, "I'm going to try. I'm trying it because I had made it through you, but I get made." There's some stuff that's going to upset me. So I want to get to the point where nothing in this life will cause me to lose my peace. But sometimes you have to have an example so you can see somebody else who's doing it. So being, you can know "I can do this, too."

So if there are those here in the sanctuary of those who are watching us live -- you're watching live electronically. You just hold your hands up. But if you here it and what you need in your heart or your home is this peace or an additional level of it, then come down. We're not going touch you. I'm going to pull my mask up so I won't breathe them. But we just want to pronounce this blessing and this anointing of the peace of God over you.

And we're not even going to pray out loud because sometimes peace is quiet. It's quiet. Don't take a whole lot of noise. Usually peace is stillness. It's quiet.

00:35:14

And if my brothers, if you just hold up your hands as you pray silently over the people that they shall have peace and peace more abundantly. And I want you to just feel it flow from heaven and gently light upon you and is it touches you, it pushes out the darkness. It pushes out the fear. It pushes out the hurt. It pushes out the frustration. It pushes out jealousy. It pushes out unforgiveness(ph). It pushes out all of the things that keep us from peace and just feel it falling down like the rain and feel it enter your soul and bring peace as it stills emotions, stills your mind from just racing from one thing to another, and it just brings peace. And as Jesus walked across the water in the middle of a storm and simply says, "Peace, be still. Peace be still. Peace be still." In the name of Jesus we pray. Amen.

Christian, you want to sing something for us and then we'll dismiss or I can sing, it does matter. That's really good. I'm just kidding. I'm just kidding.

Christian: Here's where the day gone back to living, I feel my heart being. It feels so good to know you are my friend. You are closer, closer than my stand. You are in me the day I'm breathing. Here's where the day thing gone back to living. I feel my heart beating. Feel so good to know you are my friend.

00:40:01

Amen. Stand to your feet. Amen. Let's pray. Father, thank you so much. Thank you for your peace, your presence, your power. We love you so much Lord. Thank you for filling our hearts afresh with your love, your loving kindness, your grace. Thank you for helping us to be gracious with one another, even as you were gracious with us. Thank you for peace and harmony in our homes, in our relationships with others, on our jobs, wherever we may be. We love you. We praise you and we honor you. It's in Jesus' name we pray. Let every heart say Amen. Amen.
